alwinjames66@gmail.com • +91 9846400256 • Bengaluru • [LinkedIn](#) • [GitHub](#)

PROFILE SUMMARY

MCA graduate with hands-on backend and AI development experience across two internships. Built a production MERN stack recruitment platform at Beepeaks and a RAG chatbot at IPSR Solutions. Strong in REST APIs, JWT auth, MongoDB, and ML workflows. Seeking SDE or AI/ML roles in Bengaluru.

EXPERIENCE

Backend Developer Intern | Beepeaks Private Limited Mar 2026 – May 2026 | Bengaluru · Remote

- Built all backend REST APIs using Node.js and Express.js for a production MERN recruitment platform serving Admin and Recruiter roles
- Integrated Google Sheets API v4 for automated live candidate data sync into MongoDB; implemented JWT auth with role-based access control
- Automated callback and interview email reminders using Nodemailer and node-cron; handled file uploads with Multer
- Connected all backend APIs to React.js frontend via Axios; built Excel and PDF export functionality for admin reporting

AI Intern | IPSR Solutions Ltd Jun 2025 – Nov 2025 | Kerala · Remote

- Built RAG chatbot using n8n, Gemini and Groq LLMs with Pinecone vector database; integrated LLMs with Django backend
- Performed data analysis using Python and Pandas; built Power BI dashboards; ML case studies on Decision Tree, Random Forest, SVM, PCA

PROJECTS

Candidate Tracking System — Node.js · Express.js · React.js · MongoDB · Google Sheets API · JWT · Nodemailer
Backend internship project — Beepeaks Private Limited · Production use

- Designed complete backend architecture with JWT authentication and role-based access control for Admin and Recruiter
- Integrated Google Sheets API for live candidate sync into MongoDB; built node-cron automated email reminder system
- Implemented Multer file uploads, Excel/PDF export APIs, and connected all endpoints to React.js frontend via Axios

Certiport — Blockchain Certificate Verification — *React.js · Node.js · MongoDB · Solidity · Ethereum · IPFS · Hardhat · JWT* | [GitHub](#)

Team project (2 members) · Full-stack contribution

- Built Node.js/Express.js backend with JWT auth, role-based protected routes, and REST APIs for Admin, University, and Student roles
- Integrated IPFS via Pinata for decentralized certificate storage; registered IPFS hashes on Ethereum via Solidity smart contract
- Built React.js dashboards for all roles; generated dynamic PDFs using Puppeteer and EJS templates with embedded QR codes

Strivo — Department Management System — *HTML · CSS · JavaScript · Firebase Auth · Firebase Realtime DB · FCM* | [GitHub](#)

Team project (2 members) · Built web admin panel; teammate built Android app (Kotlin)

- Built complete web admin panel for managing students, faculty, rooms, meetings, circulars, and academic calendar with Firebase Authentication
- Enabled real-time data synchronization with companion Android app (Kotlin) via shared Firebase Realtime Database
- Implemented dynamic custom columns, duplicate student detection, Base64 photo storage, and FCM push notifications

TECHNICAL SKILLS

Backend	Node.js, Express.js, REST APIs, JWT, Nodemailer, node-cron, Multer, Django
Frontend	React.js, JavaScript, HTML, CSS, Firebase
Databases	MongoDB, Firebase Realtime DB, SQL, Pinecone
AI / ML	Python, RAG, LLMs, Prompt Engineering, Scikit-learn, Pandas, NumPy, Power BI, n8n
Cloud & Tools	AWS, Microsoft Azure, Git, GitHub, VS Code, Postman, Google Colab

EDUCATION

Master of Computer Applications (MCA) — Kristu Jayanti College, Bengaluru	2024 – 2026 73%
BSc Mathematics — PTM Government College, Kerala (University of Calicut)	2020 – 2023 74%

CERTIFICATIONS

- | | |
|--|---|
| • Data Science & ML — Gold 80% — NASSCOM, 2026 | • Microsoft Azure Fundamentals, 2025 |
| • Agentic AI Automation — UiPath, 2025 | • Advanced Certificate in AI — IPSR Solutions, 2025 |
| • Oracle Cloud Infrastructure AI Foundations, 2025 | • Certificate in AI — IPSR Solutions, 2025 |
| • AWS Academy Cloud Developing, 2025 | • Programming Using Java — Infosys, 2024 |
